

Lunar Life

Our moon
Just a circle in the sky,
To the naked eye,
Yet a place that instills,
A sense of wonder, and thrills
Mankind could only dream,
About a future on this sphere,
That was in the past,
Now it is just a leap away,
There will be a time when it is reality,
Our home away from home,
We'll explore the craters, examine the regolith
Discover more about this gray circle,
That revolves around our home,
But for now,
To the naked eye,
Just a circle in the sky,
Our moon
