

# **A Daring Mission**

**The waning, waxing, gibbous moon  
A silver lune,  
Brightens the night  
Softens daylight.**

**Seen from afar, bigger than stars  
Closer than Mars,  
Rocket away  
Land on third day.**

**Orbiting, landing, on the Moon  
Exiting soon,  
Months of space prep  
Take the first step.**
